WELCOME

To those of you who are receiving MoneyTalks for the first time and HELLO AGAIN to those of you who have been our clients in years past. This issue of MoneyTalks has been specially prepared to introduce you to the depth and diversity of our inventory (considered by many to be one of the largest, if the THE LARGEST, in the U.S.).

Our Inventory covers the gamit from defective items to the rarest gems. Every effort is made to accurately and fairly describe and price each stamp. Being human causes us to make mistakes on occasion (yes — we're admitting it in print), but just bring the mistake to our attention and an immediate correction will be made. Our goal is to make each and every one of you not just a customer, but a REPEAT customer.

Why not give us a chance to show you what we can do. We're sure we can get you to join thousands of satisfied clients from throughout the world who say "I buy my stamps and coins from SUPERIOR in Beverly Hills. I'm more than pleased with the service and quality I receive. I would recommend them to all stamp and coin collectors."

Abe Franklin OR Ben Lincoln?

In 1962, the Post Office Department issued a 5 cent Lincoln embossed envelope. This in itself was not unusual, but imagine everyone's surprise when some of these showed up w/ a superimposed impression of Franklin. The Franklin die was used last in 1958 for a 4 cent embossed envelope. Nobody knows how this error happened, but Scott catalogues this spectacular error (no. U544d) for $55.00. This value is much too low in view of its scarcity. We think these are worth a lot more than the listed catalogue valuation.

We managed to obtain a small quantity of these striking envelopes from an estate where they reposed since their discovery. When these are sold, it is likely that years will pass until they are offered again.

Shekels Of Tyre

Witnesses to the triumphs and tragedies of ancient Judaea and the early days of Christianity

Shortly before the "Last Supper" (actually the Jewish feast of Passover), "Then entered Satan into Judas surnamed Iscariot . . . and (he) communed with the chief priests and captains, how he might betray (Jesus) unto them. And they were glad, and covenanted to give him money" (Luke 22:3-5). This "Betrayal Money" is now described elsewhere in the New Testament more specifically as "thirty pieces of silver" (Matthew 26:15).

Since thirty shekels of silver was the traditional price of blood to be paid in the case of a servant accidentally killed (Exodus 21:32), it is reasonable to assume that the "thirty pieces of silver" paid to Judas were actually silver shekels. And there is only one logical choice for the type of these shekels - Shekels of Tyre - since these were the only coins accepted as payment of the annual Jewish Temple Tax according to the tractate Shekalim (Shek. 1:7) . . . and thus these were the silver coins most readily available to the chief priests.

Last year, a small hoard of 161 Shekels of Tyre was discovered in Eastern Lebanon, less than 25 miles away from the Tyrian mint that produced them in the period from 100 to 89 BC (since dates appear on the coins), at the time that the area was controlled by the Maccabean ruler of Judaea - Alexander Jannaeus.

This hoard must have been buried around the time of Christ, since all of the Shekels are in a remarkable state of preservation, grading Choice Very Fine by modern conservative standards.

The area in which they were found was "inhabited by many Jews even before its annexation to Judaea" (Macmillan Bible Atlas). Perhaps this hoard represents the remnants of a shipment originally on the way to Jerusalem for payment of taxes that was waylaid "by the Itureans, an Arab tribe which had exploited the weakness of the Seleucids to expand toward Lebanon and the sea" (Bible Atlas). The exact circumstances surrounding the origin of these 161 Shekels of Tyre can only be a subject of speculation . . . but it is no speculation that these over 2000 year old coins are of high quality, well struck on wide flans, and of the highest historical interest as the type of coin used in the "Thirty Pieces of Silver" and for payment of the Jewish Temple Tax.

Whether or not you already own a single ancient coin, one of these witnesses to the triumphs and tragedies of ancient Judaea and the early days of Christianity belongs in your collection . . . especially at our low low hoard price of only $275 per Choice Very Fine specimen. When offered, these pieces usually sell between $350 and $500!

Coin Specifications

To commemorate their hard-won independence from Syria, Tyre minted their famous silver Shekels from 126 BC until the outbreak of the First Jewish Revolt in 66 AD.

The obverse of the Shekels of Tyre feature the Phoenician god Melkart, who was the chief deity of the city. Melkart's characteristics were similar to those of the Greek god Hercules; he is depicted with a lion's skin around his neck, and his club is shown on the other side.

An Egytian-style eagle dominates the Shekel's reverse. Its right claw rests on the bow of a ship, alluding to Tyre's maritime industry. The Greek letters above Melkart's club represent the date (years since achieving independence), and the surrounding inscription can be translated as "Tyre the Holy and Inviolable."

Our hoard coins are well struck on wide flans, grading Choice Very Fine. They weigh about 14 grams, similar to the U.S. half dollar. Every Shekel of Tyre has been authenticated and will be accompanied by a Professional Numismatists Guild Certificate certifying authenticity.

Because of the very small supply of hoard coins available, early orders are highly recommended to avoid possible disappointment. (Note that a handful of the Shekels in this hoard are premium quality Extremely Fine pieces; contact Ira Goldberg for availability.)

Most of the covers on this special offer were issued before cachets (the design on the left side of the FDC) came into vogue. As a result, this is the only way it is possible to obtain FDC's of these stamps. Virtually all of these FDC's were prepared by C.E. Nickels, pioneer cachet maker, before he started making cachets. Many of these FDC's have rubs and/or minor nicks due to age; however, since most are usually only seen in auctions, the following special represents an excellent opportunity to acquire classic FDC's at bargain prices.

Official U.S. New Issue Ceremony Programs

These programs are presented only to persons attending New Stamp Issue Ceremonies. Generally not more than 100 are distributed and few are saved other than as momentos. Each program consists of 2-4 pages plus the NI stamp cancelled FD. These programs are quite attractive. Naturally most are one of a kind so an alternate selection is recommended when ordering.

U.S. Post Office Official Presention Albums

An official presentation album is prepared by the U.S. Post Office for each new issue. Each album, of blue leatherette embossed with the name of the recipient, contains stamps and/or First Day Covers. These albums are presented to the dignitaries present at the First Day of Issue Ceremony. THE FIRST ALBUM prepared always goes to THE PRESIDENT OF THE UNITED STATES. Probably less than 20 albums are made for every issue, hence their extreme scarcity. All of the albums listed below are ONE-OF-A-KIND. We would recommend you call to reserve the album(s) of your choice or list an alternate selection on your order.

Special 10% discount on orders over $500 from this listing.

1964 TOKYO OLYMPIC LABELS

Collection of 6 sheets of 20 stamps all with the same designs but printed in salmon, blue, yellow, violet, green and orange.

These sheets are quite scarce as they were never actually issued. After they were printed the Japanese Government decided that since the designer wasn't Japanese (he was an American) it wouldn't look right for these to be official labels. The contract therefore got cancelled.

These sheets are quite attractive. We feel you can't help but like them.

Special – Set of 6 Sheets – $9.95 – **ORDER NO. 02-188**
Per 10 Sheets – $75.00 – **ORDER NO. 02-189**

THE 1985 SOLID 22K GOLD PROOF SET FROM THE BRITISH ROYAL MINT

1,000 Years of Tradition

The British Royal Mint has an unparalleled pedigree; it's probably the oldest operating official government mint in the world.

The mint struck the first gold sovereign in the 15th century, during the reign of Henry VII. The half-sovereign followed during the reign of Henry VIII, but the £5 coin did not appear until 1823. Today, as then, they remain among the rarest and most prized of all British coins.

In the 1985, the British Royal Mint will produce a 4 coin set featuring the huge 5 Pound coin (5 sovereigns) and the 2 Pound (2 sov.). The internationally respected sovereign and half-sovereign complete this magnificent set. Last year, a 3 coin set was issued.

These are the only legal tender proof coins struck this year, in solid 22K gold.

Opportunity

We see an immediate opportunity developing. A very *limited number of proof* gold sets and sovereigns are being issued this year.

Only 12,500 proof sets will be struck for 1985, plus 12,500 proof sovereigns and half-sovereigns.

That's worldwide! An astonishingly *low* mintage for the popular and respected British gold proof coins.

Proof Quality — The Best There Is

Proof coins represent the finest achievement of the Minter's art, and are considered to be among the most beautiful in the world. Each coin is struck at least twice, using special highly polished dies. Even the smallest datail of the raised and frosted design is crystal clear against the brilliantly polished background. As each proof coin is solid 22-karat gold, the result is magnificent.

Superb Potential — Excellent Value

These British Gold Proof specimens reflect superior quality and value in every way. At only $1,395 the Royal Mint's official issue price, plus a small shipping charge (**Please add $5 shipping & handling per order**), the four coin gold proof set is a noteworthy value. You can order the proof sovereign and half-sovereign *individually*.

The 1985 British Proof Set

Also recently released is this beautiful collection of carefully chosen circulating coins which receive special handling to preserve their Mint condition. While they are of excellent quality, they have been struck only once, and do not have the frosted reliefs or quite the same fine detail as proof coins. In all other respects, however, they are identical to the proof coins . . . with the same designs, metal content and face value.

The 1985 BU collection is presented in a handsome commemorative folder, which contains an interesting and informative commentary on the new Royal Portrait and the design of the new Welsh pound. It is an excellent educational gift for children or friends, and a meaningful commemorative in its own right . . . a collection that will recall for years to come the start of a new era in British coinage.

The 1985 Brilliant Uncirculated Collection

The 1985 British Proof Set which is now available, is certain to attract great interest. For the very first time the set contains the full range of British coins bearing the new effigy of HM Queen Elizabeth II, designed by Raphael Maklouf. A change of effigy is a very rare event in the reign of a British monarch, and the new Maklouf design is only the third since Queen Elizabeth was crowned in 1953.

The set also includes another 'first' . . . the one pound coin bearing the second of four variations of design, the Welsh leek. The leek has been adopted by the Welsh as a national emblem, commemorating the time when St. David, Patron Saint of Wales, persuaded his countrymen to wear leeks in their caps to distinguish themselves from their enemies at a battle, in 633 AD, from which they emerged victorious. The coin bears a distinctive Welsh inscription *'Pleidiol wyf i'm Gwald'*, 'True am I to my country'.

The set is available in an attractive wallet, either in blue leatherette or in superb red leather. Only 125,000 will be available throughout the world and demand has already been heavy for the much smaller quantity allocated to Northern America.

Introducing...the 1985 Proof Set

in Solid 22 Karat Gold

British Royal Mint

1000 Years of Tradition

FIRST YEAR of NEW EFFIGY

AS FEATURED IN THE INTERNATIONAL PRESS, CBS-TV NEWS SPECIAL, PEOPLE MAGAZINE

The 1985 BRITISH GOLD PROOF SET...

WORLDWIDE MINTAGE LIMITED TO 12,500 MAXIMUM

The British Royal mint struck the first gold sovereign in the 15th century during the reign of Henry VII.

Today you may own this historic coin in its rarest and most valued form in the 1985 British Gold Proof Set. It is the first gold proof set to feature the new effigy (portrait) of HM Queen Elizabeth II.

Limited Issue: Only 12,500 sets Worldwide! Each set accompanied by a Certificate of Authenticity, serially numbered. It is important to note that the 2 Pound and 5 Pound gold proof coins are available *only* in the 4 coin set, not individually. There will be 12,500 proof sovereigns and half-sovereigns issued individually completing the entire limited edition of 1985 gold proof coinage. With an already large collector following not only in Great Britain but also in North America, Europe and the Far East, demand will most likely exceed supply.

Proof Quality! Proof coins produced by the Royal Mint are the finest achievement of the minter's art. Their radiant beauty stems

History of the Sovereign: In 1489 a new 20-shilling coin was introduced, the first gold coin ever issued with a value of one pound. It became known as a "sovereign" because the obverse design depicted Henry VII enthroned in regal splendor. The half-sovereign followed during the reign of Henry VIII, and the £5 coin first appeared in 1823.

Gold coins largely disappeared from general circulation in Britain when, during the war with France at the end of the 18th century, the Bank of England was relieved of its responsibility to pay out gold coins. Finally, in 1816, during the reign of George III, the government moved to provide for a stable coinage. This reform established the magnificent gold coinage of today... the only legal tender British Proof coins now struck in solid 22-karat gold by the craftsmen of the British Royal Mint.

More Than 1,000 Years Old! Established in the 7th century, the British Royal Mint was at one time housed between the walls of the Tower of London. Today the world's largest mint is situated in the green valleys of Wales at Llantrisant. There craftsmen still create

twice, using highly polished dies. Every detail of the raised and frosted design stands out clearly against the brilliantly polished background.

The Royal Mint's coinage, especially its **proofs with fixed limited mintages**, are among the most sought after by collectors throughout the world.

SF albums are the ideal solution for the presentation and preservation of both used and mint stamps. The need of hinges is completely done away with. Nor does one have to buy mounts as the albums come already equipped with them.

- Time saving and simple. No hinges needed; no mounts to buy.
- Stamps held securely in place. No shifting, no falling out, no sticking to album pages.
- Suitable alike for cancelled and mint stamps; truly ideal for the latter, fully preserving the original gum.
- Stamps wholly protected and yet any time readily removable for inspection (rather important in case collection may have to be sold).
- Pages of opened album always lying flat because of specially punched oblong side holes.

The Lighthouse "PERFECT" two-post binders feature the unique, patented turn-bar closing system. Like all Lighthouse binders they are made of luxuriously padded material, leatherlike in finish, appearance and touch. Their spines and front covers feature handsome goldembossed decorations.

Free slipcase

We are also giving you a free slipcase for every album you buy.
These leatherfine cases provide extra protection for your collection. Fits snugly over album.

The Coinage of Mexico in Silver

During the past few years we have offered many Mexican silver crowns in our large coin listings. These have often been the quickest to sell and we are amazed at just how many people actively collect these beautiful silver crowns. We recently obtained a large quantity of uncirculated Mexico crown sized coins which are described below. This unusual opportunity to acquire these coins at very close to bullion value is a most unusual situation and due to the drop in silver prices, we are able to lower the prices and offer them to you at considerable savings. We invite you to examine the selection and submit your order today. Quantities are available but limited to stock on hand and subject to market fluctuation.

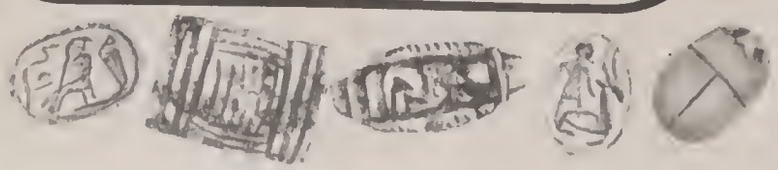
Ancient Egyptian S·C·A·R·A·B·S



GUARANTEED GENUINE

One Select Scarab $35.00 **ORDER NO. 02-200**
Three Different Scarabs $95.00 **ORDER NO. 02-201**

These are the most sacred Amulets of Ancient Egypt. They were linked w/ the Gold of Creation, Khepera. From earliest times the beetle was seen to roll a ball of maure which when rolled into the sun collected dust & clay. A minute egg had been laid in the ball, unseen by the observer. In the warm rays of the sun, the egg hatched & a beetle came forth. To the priests, the ball was a symbol of the sun that brings forth life from clay. Thus, the beetle, called by the Greeks a Scarabus, became the greatest of all amulets - the symbol of the creation of all living things.

The scarab was produced in all the known minerals & ceramics & were worn by all persons. On the base were engraved prayers, wishes, the names of kings & gods as well as private persons & geometric designs. The Egyptains called it Kheper, meaning "I create or make." Scarabs were made w/ holes drilled through as these "good luck charms" were worn by the living around the neck or on a ring.

All are either faience or steatite, all are different & in choice, intact condition. These are New Kingdom & Late Dynastic Period scarabs, ranging from the XVIIIth (1567 BC) to approx. XXIst Dynasty (935 BC).

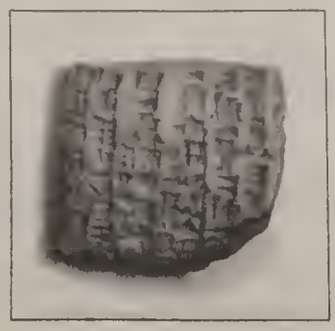
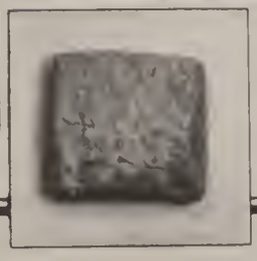
CUNEIFORM TABLETS





Two thousand years before the time of Jesus . . . about the time that the Patriarch Abraham left his home in Ur to establish Judaism in the Holy Land . . . "documents were recorded by using cuneiform characters impressed in clay tablets in the land of Ur. These documents are each unique and give us a clear insight into life in the Middle East, four thousand years ago.

Superior is privileged to be the first to offer these genuine cuneiform tablets. They have been preserved, deciphered and authenticated by the experts in the Sterling Memorial Babylonian Collection Department at Yale University. Each cuneiform tablet is accompanied by a letter from Yale with a full description of the characters found on that particular tablet.

Because we think you should not miss this unique opportunity, we will permit layaway plans of $65 down and $50 per month. Or, if payment is made in full you can receive your cuneiform tablet immediately.

But before you make up your mind, read about the tremendous historical significance of these 4,000 year old tablets:

The Historical Significance

In the opinion of some great thinkers, the invention of writing was the real beginning of civilization. It is so fundamental that one is astonished that it appeared so late (c. 3000 BC) in the development of mankind.

One of the earliest forms of writing was "cuneiform;" its name derives from the fact that it was written by pressing wedge-shaped marks into clay. Originally pictorgraphic in nature, the symbols soon lost any resemblance to the objects they were originally supposed to represent. Cuneiform writing was passed from the Sumerians to the Babylonians and Assyrians (e.g. at Ur) and on to the Hittites, the Persians, and other peoples.

The City

In the book of Genesis (11:31), it is written that "Terah took Abram, his son, and Lot, the son of Haren, his son's son, and Sarai, his daughter-in-law, his son Abram's wife; and they went forth with them from Ur of the Chaldees to go into the land of Canaan."

Having access by river and canal to the Persian Gulf, Ur was the natural headquarters of foreign trade. According to the Encyclopedia Brittanica, "many hundreds of clay tablets show how foreign trade was organized."

The Tablets

The tablets, which we now offer, all document business transactions, and they range in length from about 1 to 2 inches. Each one has a unique inscription; we supply the summary made by the Yale scholars. These tablets document the delivery of grain. . . receipt of slave girls. . . record of grain rations. . . deliveries of lambs. . . record of workmen. . . delivery of gazelle. . . receipt of reed baskets. . . expenditure of beer. . . record of wood, reed and bitumen. . . deliveries of baskets of fish. . . receipt of silver. . . oil allotments. . . account of cereals. . . receipt of rent. . . and so on.

In addition to the inscription summary, many tablets are dated to the year, month and sometimes the day, since this information is also contained in the inscription. Actual dated examples include "the third month, the 26th day in the fourth year of Amar-Sin's reign" (i.e. 2043 BC), and "the seventh month in the third year of Shu-Sin's reign" (i.e. 2034 BC).

Rare Opportunity

We don't know of anywhere in the world you can buy similar ancient tablets in excellent condition, authenticated and interpreted by scholars. . . and certainly, should you locate one, it is most unlikely that it would be priced so moderately. Just $165.00. We have seen, on rare occasions, similar cuneiform tablets offered for $350 to $500!

Nothing you own or can own can be of such historical significance at such a low cost as these 4,000 year old cuneiform tablets from Ur, the home of the Biblical Patriarchs. An early order is recommended, since we have only a very limited supply! Telephone reservations will be accepted.

Each tablet will be accompanied by a certificate of authenticity provided by the BABYLONIA COLLECTION YALE UNIVERSITY and translated. This certificate is suitable for display or framing!

1984 Double Die Obverse Lincoln Cents

We are pleased to notify our readers of this newly discovered error. Examine the ear, neck and beard and you will see the double image of these areas. While it is impossible to determine the number of coins struck, it appears that the mintage was quite low due to the significant demand for the coins and the general unavailability of these. All coins are guaranteed genuine and price is subject to change according to market conditions.

Bausch & Lomb Magnifiers now available

We are pleased to advise that we now stock several high quality Bausch & Lomb magnifiers. These are available for immediate delivery. We recommend two different types of magnifiers depending upon your requirements and these are available in different powers.

The Hastings Triplet Magnifiers are the finest magnifiers produced by Bausch & Lomb. They are highly corrected and use three separate lenses bonded together to form a compound lens. They provide a very sharp and clear image. The lense is protected from damage by a swing-away nickel plated case which serves as a handle.

We also offer the Coddington Magnifiers which stand next in performance to the Hastings. There is significant correction through the use of a single lens with a central groove diaphragm. This provides the viewer with a sharp clear crisp image. Like the Hastings, these lenses have a swing-away case for protection and use as a handle.
